SUMMARY

Final-year B.Tech Computer Engineering student seeking Software Developer (SDE) roles in mobile and full-stack development. Built and shipped applications using Flutter, React Native, Node.js, Firebase and Supabase. Published Android app on Google Play. Solved 250+ LeetCode and 1000+ CodeChef problems.

EDUCATION

B.Tech, Computer Engineering | ABES Engineering College (APJ Abdul Kalam Technical University) | 2023 – 2027 (Expected)

- CGPA: 8.15

Delhi Public School, Hapur | 2021 – 2023

- Class XII: 8.02 CGPA | Class X: 9.35 CGPA

EXPERIENCE

Software Trainee | Anvya AI | Jun 2026 – Present

- Developed frontend screens and features in Flutter (Dart) for an Android ride-sharing app.
- Contributed to backend development and REST API integration for core app functionality.
- Worked on database design and Firebase integration to store and manage user, ride and booking data.
- Integrated a payment gateway (UPI) to enable in-app payments.
- Handled testing, release preparation and Google Play Store deployment.

PROJECTS

Ago-Carpooling – Ride Sharing Android App | Flutter (Dart), Firebase | Live on Google Play | play.google.com/store/apps/details?id=com.anvyaai.ago

- Built and published a carpooling app that connects drivers with passengers travelling on similar routes.
- Implemented Google, phone OTP and email sign-in, ride posting and seat booking, live ride tracking, in-app chat and UPI payments.
- Launched on Google Play on 2 Oct 2026.

Society Chef – Meal Management Platform | React Native, Expo, Node.js, Express.js, Supabase (PostgreSQL) | Testing complete, launching soon on Google Play

- Built a full-stack application from scratch for meal planning and food order management, as a single React Native (Expo) app with separate interfaces for chefs and customers, backed by Node.js and Express.js REST APIs.
- Implemented user authentication (Supabase Auth), weekly menu planning and an admin dashboard.
- Currently adding a delivery management module.

Real-Time Hand Gesture Recognition Game | Python, OpenCV

- Built a gesture-controlled game using real-time hand tracking, with approximately 90% gesture recognition accuracy.
- Enabled touch-free interaction through computer vision based gesture detection.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, SQL
- **Frontend & Mobile:** React Native, Expo, Flutter, HTML, CSS
- **Backend:** Node.js, Express.js, REST APIs, User Authentication, Payment Gateway Integration
- **Databases:** Firebase, Supabase (PostgreSQL)
- **Libraries:** OpenCV, Pandas, NumPy
- **Tools:** Git, GitHub, VS Code, Google Play Console

CERTIFICATIONS

- Introduction to Generative AI – AWS
- Python for Data Science – NPTEL
- Introduction to Python and Programming – Cisco

ACHIEVEMENTS

- CodeChef: 1000+ problems solved; Diamond Badge in Problem Solving. codechef.com/users/siwal_sakshi
- LeetCode: 250+ DSA problems solved in Python. leetcode.com/u/siwalsakshi
